INTRODUCTION

The Featherstone Building is a 126,700 sq ft industrial-inspired workspace with a contemporary finish, located in the heart of the Old Street district, offering 110,000 sq ft of offices, 13,400 sq ft of shared amenity space, DL/28, and 2,350 sq ft of retail.

Completed by Morris+Company in April 2022, it is the latest development from Derwent London for Old Street, following the sister development opposite, White Collar Factory, which opened in 2017.

Aerial view

Inspired by the past, built for the future

A hub of industry and creativity since the 19th century, history shows that from 1887 the building housed workshops for master craftsmen and welders, bell yards, machine warehouses, a box factory and a cowshed. To ensure the building is a true reflection of its past, architects Morris+Company scrutinised the design and materiality of the eclectic mix of local buildings. The end result is a building whose 'stepped' exterior is staggered in both height and plan, giving the appearance of four adjoining warehouse-like structures. It will both catch the eye and blend seamlessly into its neighbourhood.

Entrance on City Road

THE PLACE

A stone's throw from Old Street underground station and opposite the iconic White Collar Factory campus, The Featherstone Building stands on the corner of Featherstone Street and City Road: a gateway to the City of London to the south. To the rear it overlooks the Grade I listed park Bunhill Fields, with its calm, reflective atmosphere offering a contrast to the pace of urban life.

View from Bunhill Fields

A place like no other

Old Street, with its diverse mix of people and businesses, is constantly evolving. As a result there is always something new and exciting to experience in this vibrant corner of London, no matter the time of day.

A

DAY

IN

THE

LIFE

6.20am
BLOK Shoreditch
 2 Hearn Street EC2 | bloklondon.com

Multi-disciplinary and modern, where award-winning boutique fitness meets art, design and fashion.

7.45am
Ozone Coffee Roasters
 11 Leonard Street EC2 | ozonecoffee.co.uk

Coffee roasters and hospitality experts just across the road.

10.15am
The Goodhood Store
 151 Curtain Road EC2 | goodhoodstore.com

An award-winning multi-brand retailer across menswear, womenswear, lifestyle and cosmetics.

12.00pm
Gloria
 54-56 Great Eastern Street EC2 | bigmammagroup.com

A 70s Capri-style, all-day-long Trattoria mixing old Italian classics with amazing produce direct from Italy.

12.45pm
Lilienblum
80 City Road ECI | lilienblum.co.uk

The first full-service restaurant in London from world renowned celebrity chef Eyal Shani.

3.30pm
Lantana
2 Oliver's Yard, 55 City Road ECI | lantanacafe.co.uk

An Australian style café with seasonal menus known for its famous breakfast, brunch and speciality coffee.

6.00pm
Fare
11 Old Street ECI | farelondon.com

An all-day restaurant and bar serving up a menu of thin crust pizzas, sharing plates and amazing coffee & cocktails on tap.

8.00pm
BRAT
4 Redchurch Street E1 | bratrestaurant.com

Awarded a Michelin star within six months of opening. "It's Welsh meets Basque and it is mind-blowing from the get-go. It's that good. That different. That special." Giles Coren, The Times.

10.20pm
The Hoxton, Shoreditch
81 Great Eastern Street EC2 | thehoxton.com

The original Hoxton hotel and a firm fixture in Shoreditch since 2006, serving food and drinks round the clock, from morning 'til night.

10.55pm
Old Street Records
350-354 Old Street EC1 | oldstreetrecords.com

The home of live music, cocktails, pizzas and good times in Shoreditch.

Overlooking Bunhill Fields to the south, the area is an oasis of calm and greenery.

On your doorstep

Nowhere has a more exciting or eclectic mix than Old Street, which boasts an unparalleled selection of independent coffee houses, many of the best restaurants in London and a broad array of fitness centres, offering employees a range of opportunities in which to enhance their well-being.

After dark there are live music venues, DJ bars, boutique cinemas and private member's clubs, including the internationally renowned Shoreditch House.

Transport

Less than a minute's walk away is Old Street underground station, where you can access the Northern Line and National Rail.

Twelve bus routes, including two night buses, stop at or near Old Street station, providing another quick and easy means to reach key parts of town.

For cyclists, the London Cycle Network Plus provides quieter routes to traverse the city, and runs along Featherstone Street, right outside the building. There are several cycle-hire docking stations in the area and The Featherstone Building has cycle access via its ground floor loading bay, where there is a cycle store for 202 cycles and 84 folding cycles.

UNDERGROUND From Old Street station			
Station	Time	Line	Changes

Airport	Time
City	29 mins
Luton	42 mins
Heathrow T2 & T3 (Elizabeth line* 33 mins)	49 mins
Gatwick	58 mins
Stansted	69 mins

*Elizabeth line from Liverpool Street, accessed via Moorgate

The Elizabeth line

The Featherstone Building is extremely well connected to the rest of the City and beyond, which has improved with the arrival of the Elizabeth line.

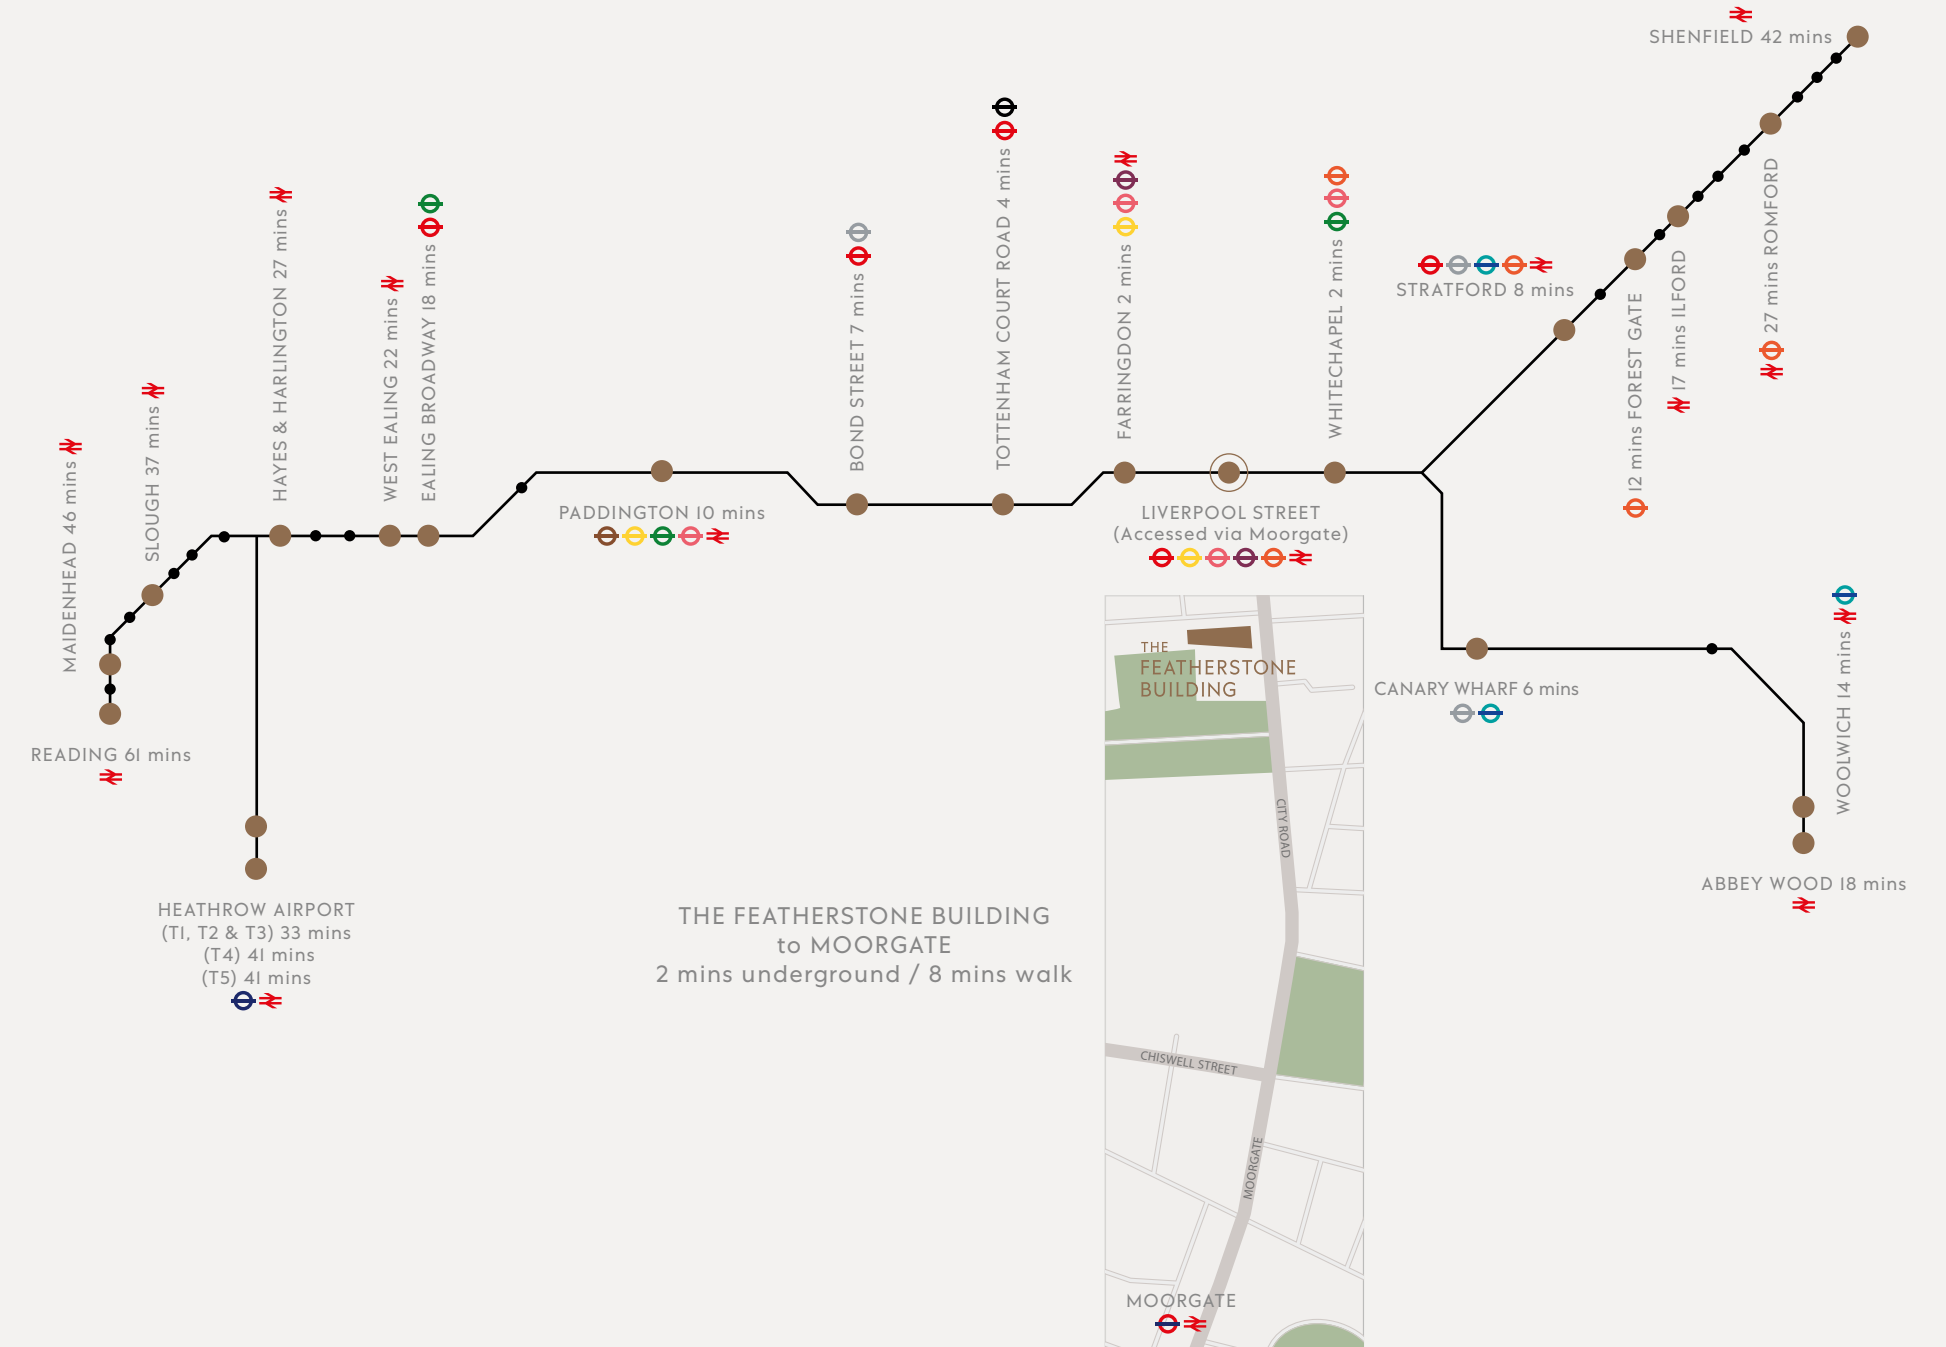

Accessed via Moorgate station, just two minutes away on the Northern line or an eight minute walk, there's quick access to Liverpool Street station, where the Elizabeth line dramatically reduces journey times across London.

From Liverpool Street, Tottenham Court Road is only four minutes away, Canary Wharf six minutes, Stratford eight minutes, and Heathrow terminals between 33 and 41 minutes away.

Top Liverpool Street station upper escalator with inclined lift to Broadgate ticket hall
Bottom Liverpool Street station entrance at Broadgate

The Elizabeth line

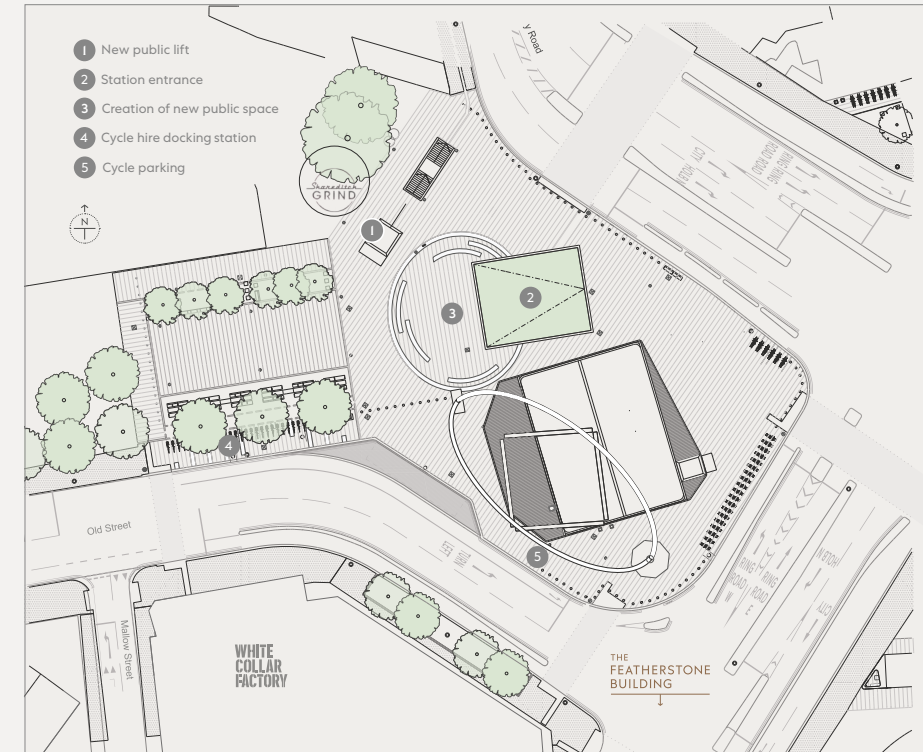

Regeneration

The future is bright for Old Street. Transport for London will make the area around Old Street station more pedestrian and cycle friendly.

As part of the scheme they are:

- Adding signal-controlled pedestrian crossings and segregated cycle lanes
- Building a new public space around the new station entrance for easier access
- Building a designated public lift into St Agnes Well mall retail concourse

Old Street regeneration
Above New station entrance
Right Green-roofed station entrance

THE SPACE

A brickwork façade, exposed concrete ceilings, generous windows and “stepped” design cleverly play down the scale of the structure by conveying the impression of four subtly contrasting buildings. The architecture echoes that of the Victorian warehouses that characterise the local area.

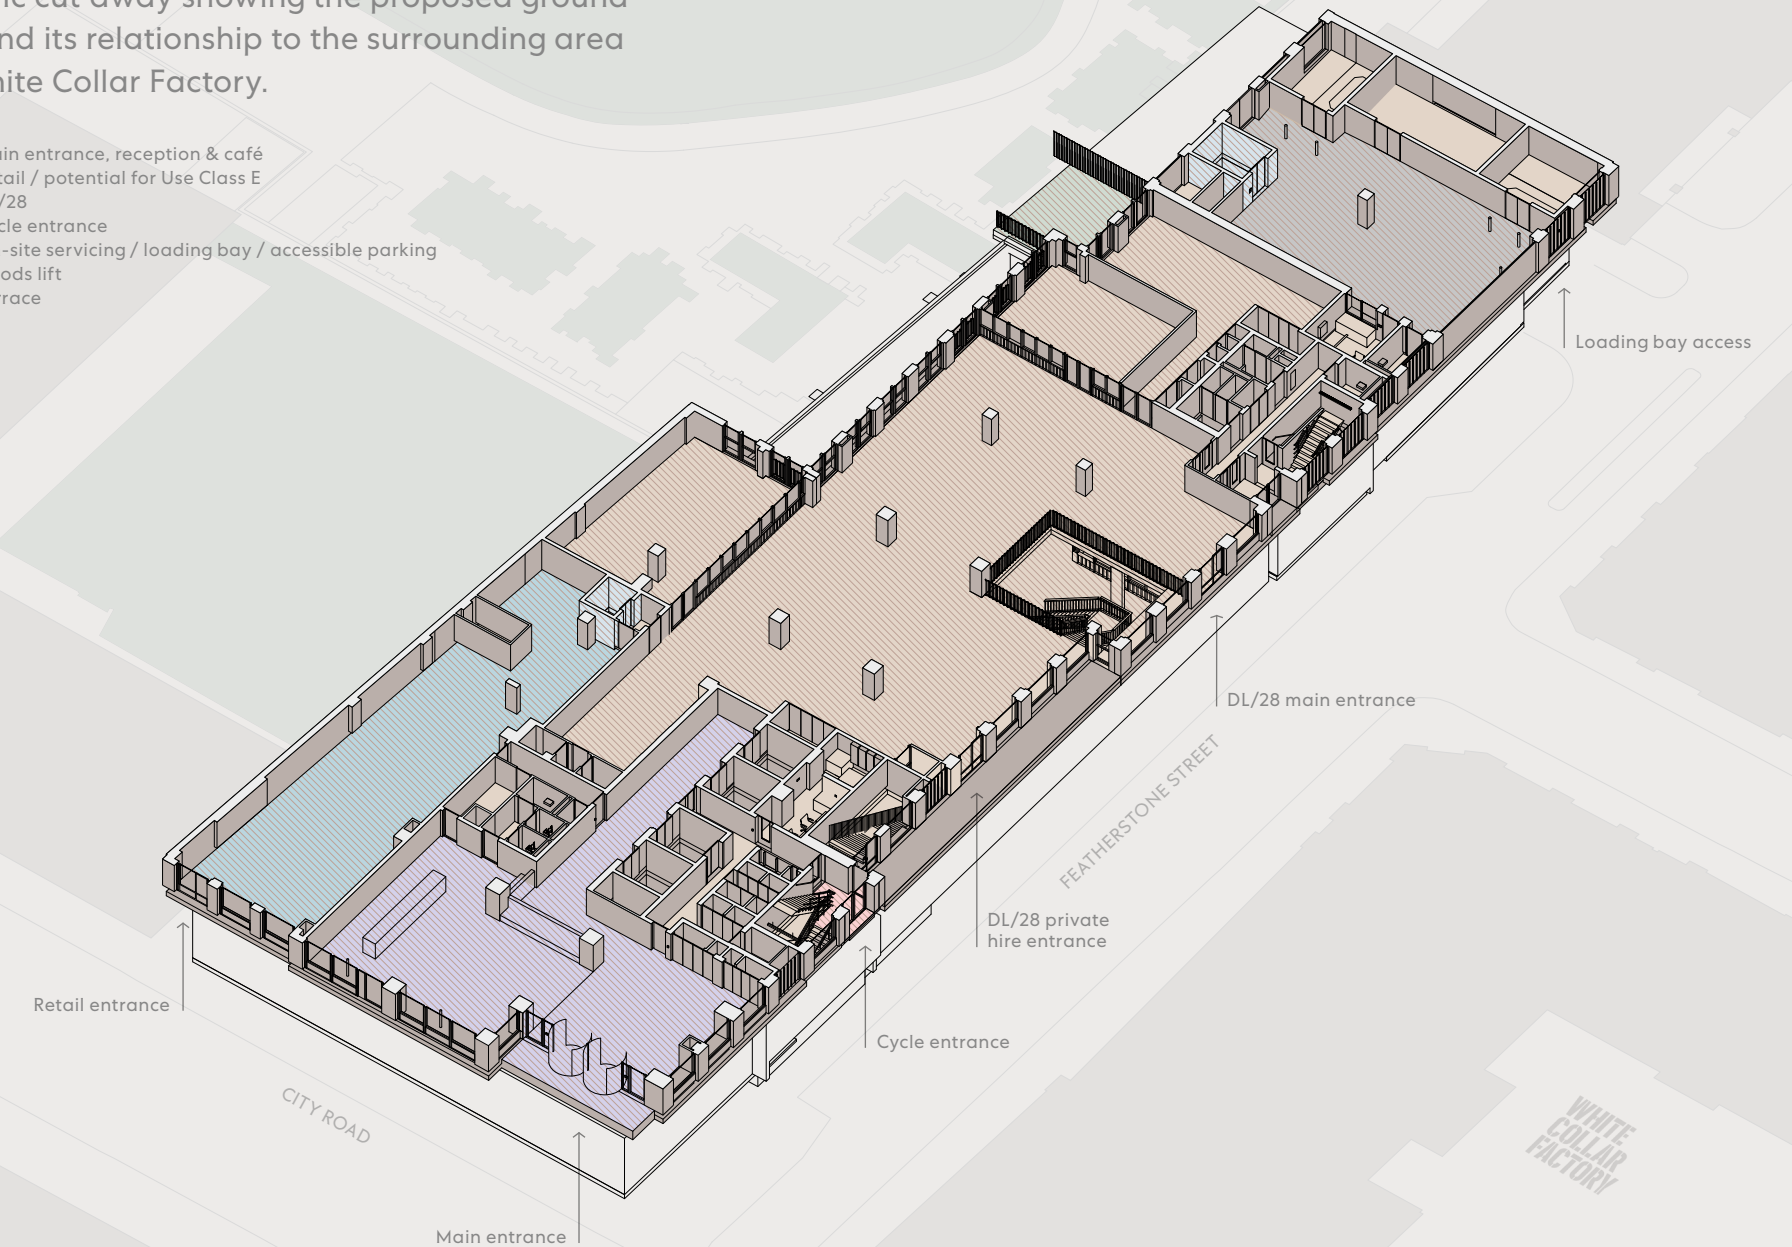

The Featherstone Building takes its inspiration from those warehouses, and is constructed to stand the test of time.

Site plan

Isometric cut away showing the proposed ground floor, and its relationship to the surrounding area and White Collar Factory.

-  Main entrance, reception & café
-  Retail / potential for Use Class E
-  DL/28
-  Cycle entrance
-  On-site servicing / loading bay / accessible parking
-  Goods lift
-  Terrace

Key features

- Situated next to Old Street underground and close to the Elizabeth line, accessed via Moorgate
- Beautifully designed double-height reception with 7.5m floor to ceiling height
- Integrated café, DL/ Service
- DL/ Members Lounge, DL/28 over ground and lower ground floors totalling 13,400 sq ft
- Efficient floor plates of c.17,000 sq ft on the lower floors (1st - 4th), c.7,800 sq ft on the upper floors (5th - 9th) and c.3,600 sq ft on the 10th floor
- Communal roof terrace on the 10th floor including a covered pavilion
- Lower ground cycle store for 202 cycle spaces and 84 folding cycles
- 222 lockers and 21 showers
- 3.125m floor to ceiling height on all floors
- Openable windows throughout and exposed concrete ceilings
- Elegant external architecture using a natural brick palette
- 1 person per 8 sq m occupational density
- An Intelligent Building that delivers for the digital future
- Concrete core cooling system allows an industrial aesthetic
- Achieved net zero carbon construction on completion
- Achieved EPC Rating 'A'
- Achieved WiredScore Platinum
- Achieved AirScore Design & Operation Gold
- Achieved BREEAM Outstanding
- Achieved LEED Platinum

Communal rooftop pavilion

City Road façade

The Featherstone Building is characterised by solid vertical brick piers and concave concrete lintels. Viewed from the street it looks like four adjoining warehouse-like structures, though inside it is a single entity that can be configured in multiple ways.

Below Architect's sketch of the City Road entrance

Entrance on City Road

Reception and café

- 2,950 sq ft combined reception and café
- Double-height entrance space with industrial pendants
- Seating set into window reveals
- Bespoke reception desk
- Integrated café, DL/ Service, open weekdays 7.30-11.30am
- Feature Hugo Dalton bespoke artwork above the reception desk

DL/ Service

Reception

Ground floor: 7,891 sq ft / 733 sq m

-  Double-height reception & café, DL/ Service
-  Retail
-  DL/ Lounge - DL/28
-  Loading bay
-  Common parts
-  Private terrace

Lower ground floor: 5,546 sq ft / 515 sq m

-  DL/ Lounge - DL/28
-  Common parts
-  Cycle store
-  Showers
-  Lockers

Second floor - CAT A: 9,724 sq ft / 903 sq m

-  CAT A office
-  Common parts
-  Furnished + Flexible

Roof terraces

The building features multiple terraces; places to reflect, take a breather or enjoy with colleagues in the warm weather.

4th floor
183 sq ft

5th floor
3,494 sq ft

10th floor
848 sq ft (private)
2,996 sq ft (communal)

Fifth floor terrace

10th floor rooftop pavilion

The 10th floor is a vibrant biophilic space above the treescape of Bunhill Fields.

The communal terrace includes a covered pavilion. It is a sanctuary for connection and collaboration for the sole use of the office tenants, providing a calming space for informal working and socialising.

Lower ground cycle storage

- 202 cycle spaces
- 84 folding cycle lockers
- 222 lockers
- 21 showers including
4 flexible unisex cubicles

Core and lifts

Design details

- Band-sawn oak flooring
- Concrete walls and soffit
with exposed services
- Schindler passenger lifts

Responsible development

As a responsible business, sustainability is deeply ingrained in everything we do.

Our sustainability strategy encompasses green finance, the highest environmental standards throughout our supply chain, responsible management of our existing portfolio and helps drive the creation of some of London's most innovative new office developments.

Derwent London has been at the forefront of pushing for the highest sustainability standards for many years, underlined by our recent commitment to achieve net zero carbon (NZC) by 2030.

Top 80 Charlotte Street, WI entrance
Above 80 Charlotte Street, WI elevation

Key milestones on our journey to Net Zero Carbon by 2030

A sustainable building curated by a responsible developer

We are committed to designing, delivering, and operating our buildings responsibly and The Featherstone Building is no exception. That is why the following features are provided to meet our NZC goals, enhance occupier wellbeing and support wildlife.

ACHIEVING NET ZERO CARBON

Energy consumption & costs

Total anticipated operational carbon use expected to be 50% less than best practice standards (based on REEB 2019 standards) – equivalent to 933 people moving to a plant-based diet.

Annual water consumption expected to be 55% less due to water efficiency measures – equivalent to 2.2 Olympic sized swimming pools.

The Concrete Core Cooling solution lowers operational energy use generating a 25% cost saving, lowers embodied carbon and extends the building's life.

The building will be supplied with 100% renewable electricity and gas.

Onsite solar PV panels will provide 2% of the energy for the building.

Enhanced sub-metering will enable occupiers to monitor their electricity and heat consumption.

Responsible construction

Low carbon concrete was used during construction, lowering the embodied carbon intensity of the building.

Use of pre-fabricated materials reduces pollution during construction.

Any carbon emissions created by the building which cannot be eliminated will be offset using certified schemes.

All timber used in construction is FSC/PEFC certified.

ENHANCING WELL-BEING

Active by design: the striking precast-concrete staircase encourages you to take the stairs over the lift, helping to add some extra activity in your busy workday.

Fresh air: openable windows and enhanced ventilation providing fresh air at your fingertips.

Natural light: floor-to-ceiling glazing and generous 3.125m ceiling heights flood natural light into the office, creating a bright and spacious environment.

286 cycle spaces with shower facilities allow occupiers to easily cycle to work, which is great for wellbeing and the environment.

Thermal comfort: the brick and solar coated glass façade reduces solar gain to help reduce overheating.

WELL fit-out: building designed to support this certification.

ENCOURAGING WILDLIFE

Biodiverse green roofs will provide a habitat for local wildlife.

We are pleased to support the London Wildlife Trust at their Woodberry Wetlands Centre in Hackney – this initiative will help restore reedbed habitats and increase the diversity of wildflowers.

STANDARDS

BREEAM Outstanding

LEED Platinum

EPC Energy Performance Certificate Rating 'A'

An Intelligent Building that delivers for the digital future

The Featherstone Building is a Derwent London Intelligent Building.

State-of-the-art technology and software reads data collected by thousands of sensors throughout the building. The Featherstone Building's software platform processes the data (such as energy usage, space utilisation, indoor air quality and hundreds of other data points) and intelligently learns how to maximise operational efficiencies, improve performance and comfort, minimise energy use, carbon emissions and energy costs and reduce maintenance and service charge costs.

State-of-the-art digital enablement

Integrated building software and systems

All the building's systems and services are all interconnected through Derwent's Intelligent Building software, built on Microsoft infrastructure. Smart sensors read information generated (energy usage, internal air quality, population density, busiest lift times, quietest shower times) and intelligently change and tweak the building's systems to keep costs down and improve wellbeing.

Integrated digital team

Work in partnership with Derwent London's in-house experts and Intelligent Building team who specialise in innovation, software development, cyber security and building automation to create a customised solution that maximises your space, productivity and efficiency.

Smart enabled amenities

Book meeting rooms, sign-in guests, open doors and call lifts touch-free via the Derwent London App.

Cyber security

Your office data is delivered via a cloud-based dashboard and all systems are protected with a state-of-the-art cyber security framework meaning you and your data are protected from modern cyber threats.

Energy and costs savings

By using technology to focus on energy efficiencies, this has an inherent commitment to driving down costs.

The Featherstone Building is a digitally enabled building ready for the digital future.

Concrete Core Cooling (CCC)

Following White Collar Factory, Derwent London are integrating a CCC system into the building design at The Featherstone Building.

Unlike conventional air conditioning, CCC works with the thermal mass of the building's concrete structure to absorb the heat generated in the office. A network of chilled water pipes is embedded in the concrete, providing radiant cooling to the office environment. Additional heating, if required, is provided using hot water in trench heaters located around the office perimeter.

Benefits of CCC include:

High ceilings

A 3.125 m floor to soffit height provides excellent daylight penetration, greater flexibility for fitting out, and improved comfort levels.

Natural ventilation

The building is designed with openable windows throughout, to enable natural ventilation whenever outside temperatures are between 14°C and 25°C (approximately 50% of occupied hours per year). This puts people in charge of their environment and provides a connection to the outside world, all controlled by the building's occupiers.

A clean ceiling with an industrial aesthetic

Uncluttered soffits make partitioning efficient to install, and ongoing alterations easy, providing maximum flexibility for a wide range of occupiers.

Carbon benefits

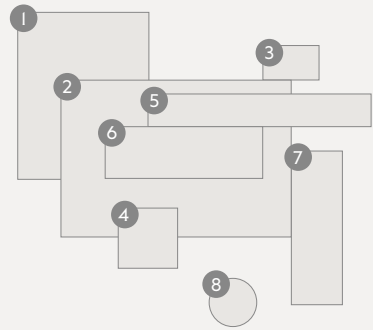

Using low cement content, exposed fair-faced concrete minimises our carbon footprint. Lower carbon emissions and operating costs also improve energy performance. CCC also harvests free night time cooling, which is stored for slow daytime release.

Passive & non-intrusive system

Low air movement means reduced draughts and provides for a quiet / calm working environment.

Materiality

The Featherstone Building's exterior is clad in contrasting monochromatic shades of brick, and features generous filigree metalwork windows.

Materials Palette

- 1 Rough hewn and acid etch smooth light grey concrete
- 2 Rough hewn and acid etch smooth charcoal concrete
- 3 Textured concrete charcoal paving slabs
- 4 Textured concrete light grey paving slabs
- 5 Window system – bronze finish industrial C channels
- 6 Handmade cinder grey brickwork
- 7 Handmade soft buff brickwork
- 8 Bronze finish metalwork

- Linear lighting at low level
- Wall mounted lighting along façade piers

THE TEAM

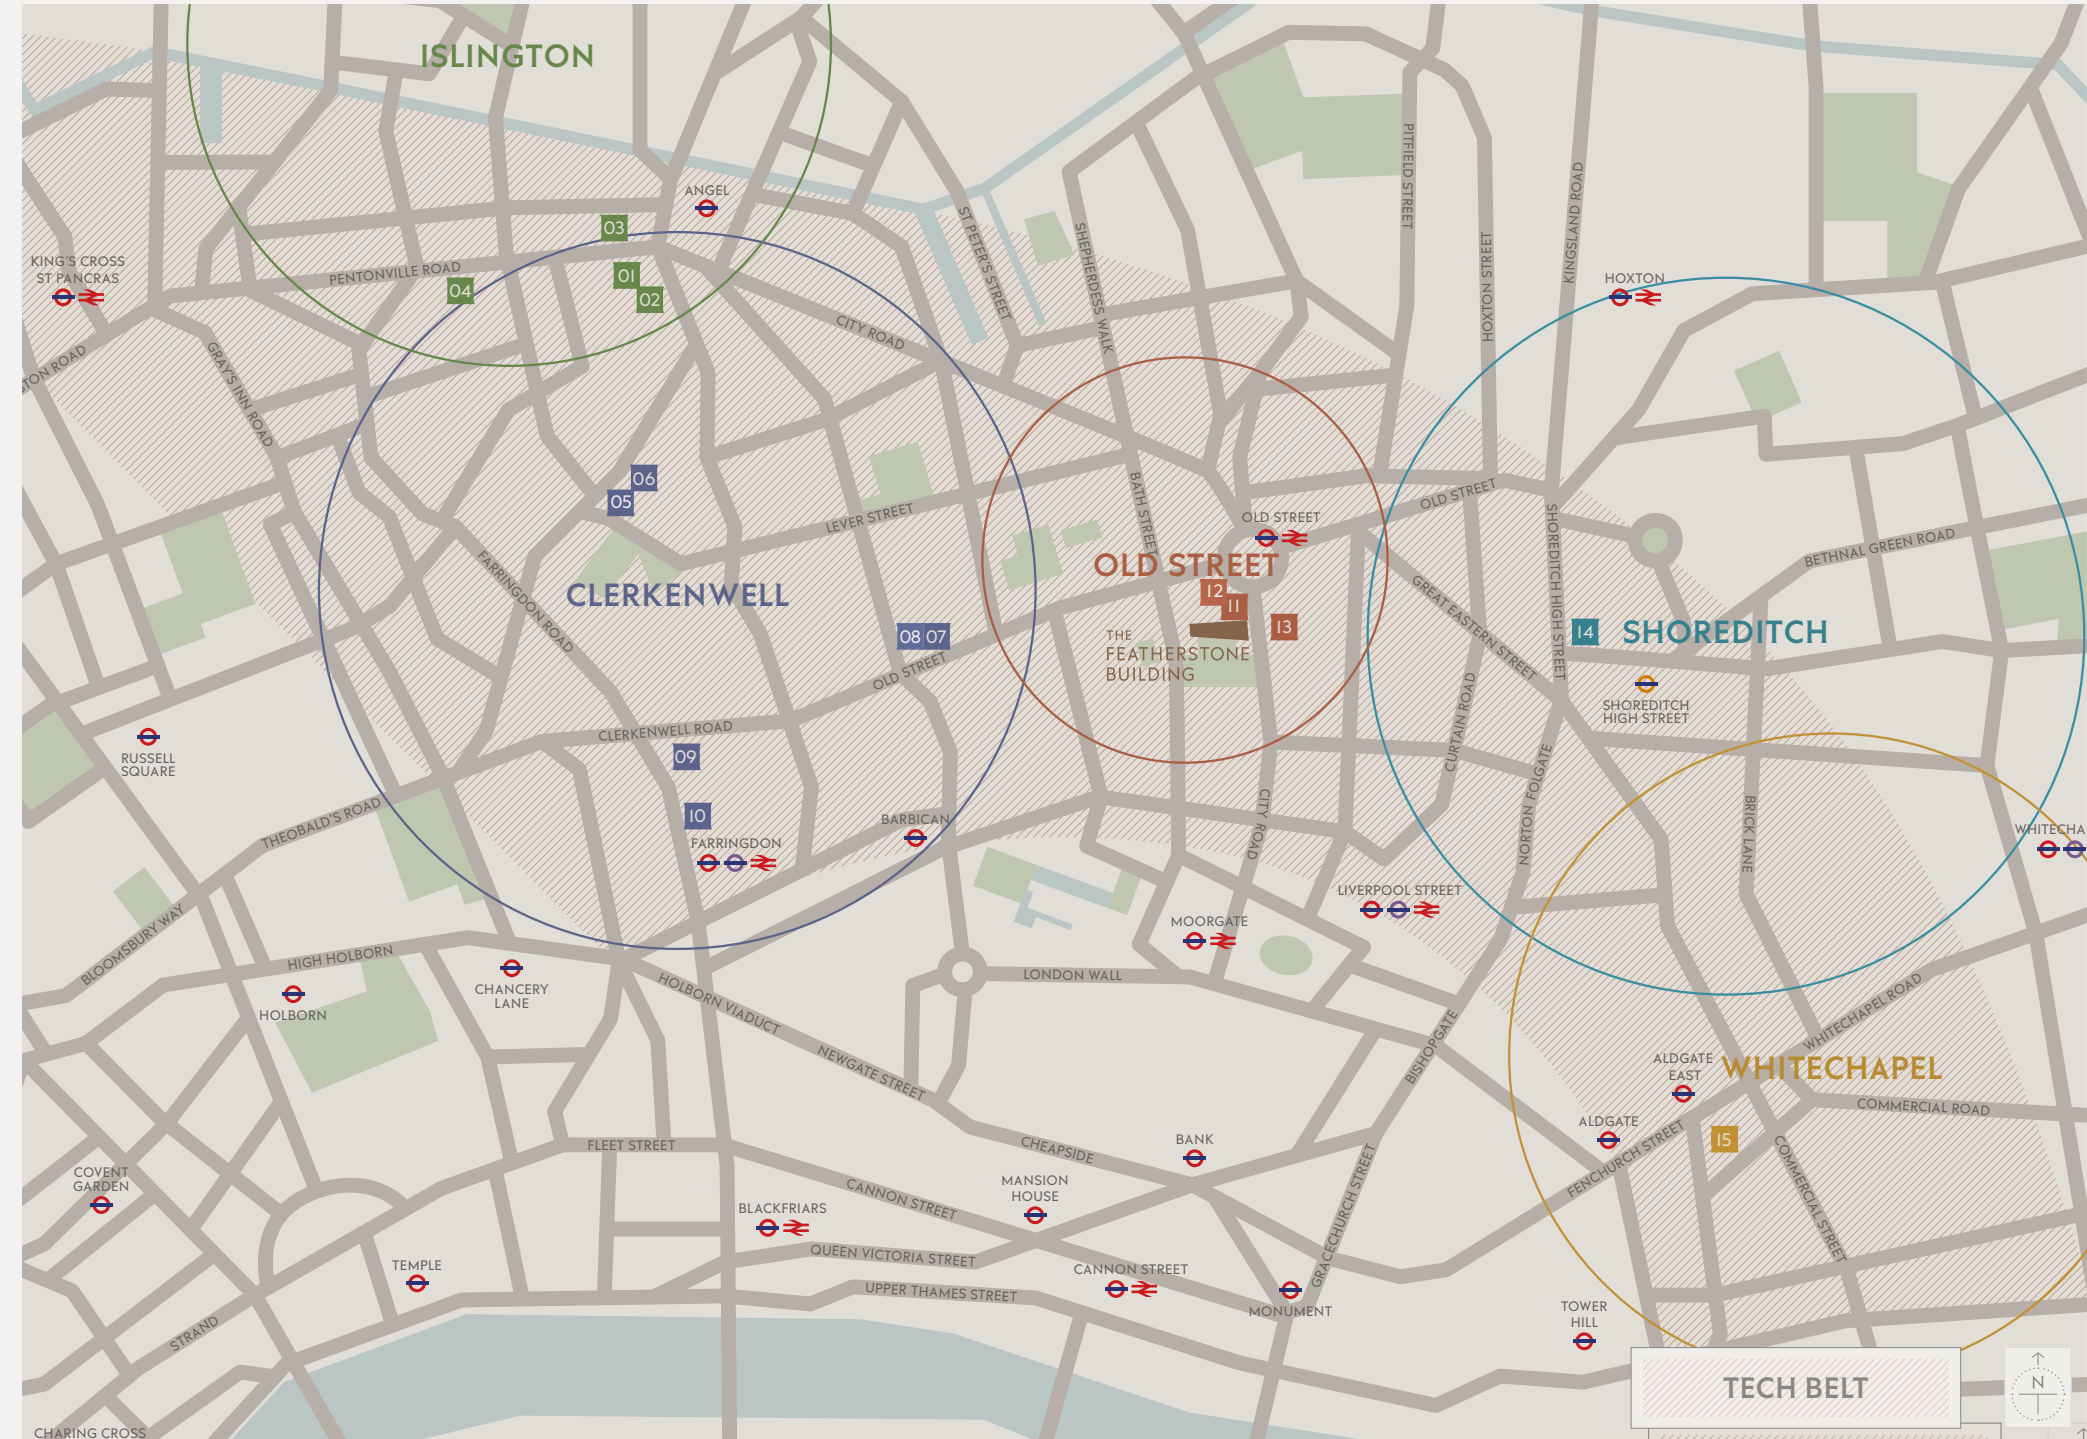

Derwent London is a different kind of developer – a design-led creative office specialist providing unique workplaces where occupiers become long-term partners. We look for prime sites with hidden potential where we can develop best-in-class buildings with generous volume and excellent natural light. Good transport links are vital. We are known for our flexible approach to ever-changing workspace requirements.

Derwent London

A key part of our business model has been an industry-leading commitment to architecture, research and responsibility. We believe this approach helps us to deliver inherently sustainable spaces which are attractive to occupy and efficient to operate. We are committed to making better places and contribute to local communities.

DL / MEMBERS

As a valued tenant of Derwent London, you will automatically enjoy complimentary DL/ Membership status.

DL/ Members have access to an ever-growing package of exclusive benefits.

Why? Because amenity and service are important to us. We see our role going beyond the responsibilities of a traditional landlord.

DL / App

Your effortless personal portal to book meeting rooms in our DL/ Lounges, reserve your place at events and access exclusive discounts and offers.

DL / Experience

Provide an excellent front-of-house experience to Members in our buildings. From networking events, rooftop yoga, film screenings and charity activities to connect with local communities.

DL / Lounges

Created for connection and collaboration, DL/78 and DL/28 are inspiring spaces where Members can work, meet, eat, socialise and be inspired. We designed these multi-purpose environments as destinations for our community to gather, learn and share meaningful and productive experiences together.

Members can drop in and work or network in these complimentary and private Lounges, each with their own on-site café. High-spec meeting rooms and private event spaces are available to book. Gather for creative workshops, wellness classes and inspiring talks. We collaborate with many well-known brands and businesses to curate a diverse programme of exclusive experience-led events, all hosted by the DL/ Lounges team. These spaces are yours to enjoy and are easy to access via the DL/ App.

Left DL/28 reception

Our DL/ Lounges include:

- Communal collaboration and working areas in the Lounge
- Bookable meeting rooms configured to your needs
- Library for quiet working (DL/28)
- Outdoor terrace (DL/28)
- Event / town hall space available for exclusive hire
- On-site café operated by DL/ Service
- Curated events programme
- All connected via the DL/ App

Architects: Morris+Company

The company of architects, which in 2018 evolved out of longstanding Derwent collaborators Duggan Morris, draws inspiration from the robust, adaptable buildings of Victorian industrialists. Morris+Company's buildings pay homage to the past while adding new elements and layers to the story.

Meticulous researchers of local stories, styles and traditions, Morris+Company have the inquisitive nature of investigative journalists — allied to forensic skill of master crafts people. In the planning stages, a building's features and materials are refined over and over until the perfect form is found.
